PROFESSIONAL SUMMARY

Aspiring Front-End Developer dedicated to creating outstanding user experiences and ensuring accessibility. Recognized for attention to details, and strong problem-solving skills. Collaborative team player committed to effective communication and teamwork in diverse environments. Passionate about designing visually appealing, intuitive web applications and staying current with emerging technologies.

EDUCATION

University of California San Diego

Bachelor of Science (B.S.) in Computer Science, GPA: 3.77/4.0

La Jolla, CA

Sep. 2020 – Dec. 2022

West Los Angeles College

Associate's in Science for Transfer (AS-T), GPA: 3.96/4.0

Los Angeles, CA

Aug. 2016 – June 2020

EXPERIENCE

Contract Front-End Developer

June 2023 – Present

Agent Copilot

Remote

- Worked collaboratively in a team of developers to build a dynamic web-based React application
- Developed reusable React components for code maintainability and team collaboration
- Utilized Redux for efficient state management, facilitating seamless data flow among various components
- Leveraged RESTful APIs to handle data interactions with the backend
- Employed Tailwind CSS to implement responsive and visually engaging user interfaces and enhance code efficiency
- Collaborated with designers to optimize UI/UX and ensure accessibility standards for an inclusive user experience
- Engaged in Agile practices, collaborating across teams with iterative development, daily standups, and sprint retrospectives

Software Development Intern

June 2022 - Sep. 2022

MotionBox.io

Remote

- Collaborated within a 3-member development team to build a dynamic video editing feature
- Utilized 'fetch' and 'axios' for API integration, ensuring smooth communication between frontend and backend
- Utilized React JS components including Forms, Events, Keys, Router, and Redux for efficient development
- Engaged in design reviews to enhance video editing feature's UI/UX and functionality
- Collaborated with product team for user feedback-driven enhancements to the feature
- Practiced Agile methodologies through sprint meetings and daily standups

Front-End Development Intern

June 2021 - Sep. 2021

MotionBox.io

Remote

- Developed and refined user dashboard interface using React JS with React Router for seamless navigation
- Crafted visually appealing and structured UI components with JSX and Styled Components
- Improved reusability with dynamic props and managed responsive experiences using state
- Utilized modern hooks like useState and useEffect for efficient component behavior management
- Collaborated closely with design team to craft visually captivating user interfaces
- Employed Git and GitHub for version control

Application Development Intern

Mar. 2019 – Aug. 2019

Los Angeles Department of Transportation

Los Angeles, CA

- Contributed to the development of an interactive widget tailored to public transportation users
- Employed HTML, CSS, and JavaScript for the construction, styling, and functional aspects of the widget
- Employed responsive design with media queries for consistent cross-device usability

SKILLS

Languages: C/C++, Java, SQL, Python, JavaScript, HTML5, CSS

Frameworks: React.js, jQuery, Tailwind, Bootstrap

Databases: MySQL
