## PROFESSIONAL SUMMARY

---

Passionate Front-End Developer dedicated to delivering exceptional user experiences and promoting accessibility for all. Proficient in React.js, Tailwind CSS, and Redux. Collaborative team player with a focus on optimizing applications. Committed to crafting visually appealing and user-friendly web applications and staying updated with emerging technologies in the field.

## EDUCATION

---

### University of California San Diego

*Bachelor of Science (B.S.) in Computer Science, GPA: 3.77/4.0*

La Jolla, CA

Sep. 2020 – Dec. 2022

### West Los Angeles College

*Associate's in Science for Transfer (AS-T), GPA: 3.96/4.0*

Los Angeles, CA

Aug. 2016 – June 2020

## EXPERIENCE

---

### Contract Front-End Developer

June 2023 – Present

*Agent Copilot*

*San Diego*

- Employed Tailwind CSS to implement responsive and visually engaging user interfaces and enhance code efficiency
- Created reusable and modular React components for improved code maintainability
- Implemented state management using tools like Redux
- Handled data retrieval from back-end APIs using RESTful
- Wrote and maintained unit tests for component reliability
- Improved application performance by 30% through code optimization and efficient resource utilization
- Collaborated with designers to optimize UI/UX and ensure accessibility standards for an inclusive user experience
- Maintained documentation for the front-end codebase

### Contract Front-End Developer

March 2023 – June 2023

*Domere Interiors, LLC*

*Remote*

- Designed and developed a website for an interior design business
- Collaborated with the marketing team to optimize the website for SEO
- Refactored the website to be mobile responsive on all devices
- Enhanced page loading times with CDN (CloudFront) and S3 for efficient video and image delivery

### Software Developer Intern

Feb. 2021 - Feb. 2023

*MotionBox.io*

*Remote*

- Collaborated with a team of 3 developers to build the frontend stack using modern technologies, including jQuery, JavaScript, HTML5, CSS, JSON, and React JS.
- Utilized React JS components including Forms, Events, Keys, Router, and Redux for efficient development
- Integrated Auth0 authentication into the platform's frontend stack to enhance security and user authentication
- Leveraged Express.js in the backend, along with MongoDB as the database, for efficient data storage and retrieval
- Utilized 'fetch' and 'axios' for API integration, ensuring smooth communication between frontend and backend
- Worked closely with design teams, utilizing Figma experience to visually appealing user interfaces
- Employed Git and GitHub for version control, ensuring seamless collaboration and code management

### Application Development Intern

Mar. 2019 – Dec. 2019

*Los Angeles Department of Transportation*

*Los Angeles, CA*

- Assisted in a development of an interactive widget for tourists and cyclists using HTML, CSS, JavaScript and the Google Maps API
- Created user-friendly interfaces for locating the closest attractions via public transportation and bike lanes
- Implemented responsive design principles for seamless functionality across devices
